# Leadership and Catalytic Partnerships: Delivering Integrated Safe City and Public Spaces Programmes With and For All Women and Girls

4<sup>th</sup> Safe Cities and Safe Public Spaces Global Leaders' Forum

Shaw Conference Centre, Edmonton, Alberta

October 16 -19, 2018

Message from

**Under-Secretary-  
General of the United  
Nations and Executive  
Director of UN Women,  
Phumzile Mlambo-  
Ngeuka**

UN Women is very pleased to welcome the women, men and youth safe city champions from over 25 countries who have gathered to share their knowledge, achievements and lessons learned at the 4th UN Safe Cities and Safe Public Spaces Global Leaders' Forum.

When UN Women was created in 2011, we launched Safe Cities and Safe Public Spaces, an integrated Global Flagship Initiative dedicated to ending the scourge of sexual harassment against women and girls in public spaces and creating safe, smart and sustainable cities for all, with five founding city programmes: Cairo (Egypt), Delhi (India), Kigali (Rwanda), Port Moresby (Papua New Guinea) and Quito (Ecuador). The Initiative now includes 35 cities and continues to grow within and across countries.

The Global Forum's theme of Leadership and Catalytic Partnerships in safe cities is critical both to the localization of multiple Sustainable Development Goals and to the implementation of the New Urban Agenda, in line with the 2030 Agenda for Sustainable Development's principles of human rights, universality and leaving no one behind. We share a significant vision of safe spaces in which everyone can travel, work, play and interact freely and safely.

We thank the City of Edmonton for co-hosting the Global Forum and the Second Global Mayors' Meeting on Gender Equality, and for the support given by the Spanish Agency for International Development Cooperation, the Republic of Korea, the Government of Alberta and the Government of Canada.

The ideas and experiences that you share here in Edmonton will be key to ensuring that our cities and public spaces are places of safety, equality and sustainability for all.

Message from

**His Worship Mayor**  
**Don Iveson**

On behalf of City Council and the people of Edmonton, welcome to the Safe Cities and Safe Public Spaces Global Leaders' Forum.

In 2015, Edmonton City Council established the Gender-Based Violence and Sexual Assault Prevention initiative. Since then, we became the second Canadian city to participate in the United Nations Women Safe Cities and Safe Places Global Initiative. We also conducted a Safe City study on sexual violence to learn which forms are most common, where it's occurring and who is most often victimized.

With this information in hand, we now have an incredible opportunity to change the future. It's time to take action; it's time to build safe spaces for women and girls. Violence within our communities does lasting harm to individuals and diminishes our city's potential for success. Whether the abuse is physical, emotional, financial or sexual, it rips holes in the fabric of our society. We all share a responsibility to stand together against violence and support the survivors.

I thank the forum organizers, presenters, sponsors and attendees for your commitment to ending sexual harassment and other forms of sexual violence against women and girls here at home and around the world. By bringing together 250 leaders and experts from 25 countries to share and discuss evidence-based approaches, leading practices, tools and innovative strategies, we can create safer cities and public spaces.

Yours truly,

A handwritten signature in black ink, appearing to read 'Don Iveson'.

Don Iveson  
Mayor

# Programme

## **Leadership and Catalytic Partnerships: Delivering Integrated Safe City and Public Spaces Programmes with and For All Women and Girls**

**4<sup>th</sup> Safe Cities and Safe Public Spaces Global Leaders' Forum**

**Shaw Conference Centre, Edmonton Alberta**

**October 16 -19, 2018**

UN Women's 4th Safe Cities and Safe Public Spaces Global Leaders' Forum will be held in Edmonton, Canada on the theme "Leadership and Catalytic Partnerships: Delivering Integrated Safe City and Public Spaces Programmes with and For All Women and Girls". It will bring around 250 leaders/experts from over 25 countries, including those participating in comprehensive human rights-based programmes in the Safe Cities and Safe Public Spaces Global Flagship Initiative. This includes: grassroots women/women's organizations, national and local authorities, research institutions/partners, representatives from the media, private sector, and other partners from global women's safety networks. The Forum aims to share and discuss evidence-based approaches, practices, tools, and learnings to advance the international knowledge base on safe cities and safe public spaces for women and girls.

## **Objectives:**

- Provide up-to-date knowledge, and share good practices and results achieved in the implementation of safe city and safe public spaces programmes aimed at preventing and responding to sexual harassment and other forms of sexual violence against women and girls in public spaces.
- Support a cross-regional face to face learning platform for gender equality, women's empowerment and ending violence against women and girls in agreed upon thematic areas. These exchanges will continue to inform the *Online Knowledge and Exchange Platform: Global Safe Cities and Safe Public Spaces Community of Practice*.

### **Three key takeaways from the Forum include:**

**Heightened engagement** among multi sectoral stakeholders to implement safe and sustainable cities with women and girls' policy and programme action.

**Tools and applied lessons learned** to further strengthen comprehensive multi-sectoral evidence, and human rights-based approaches to prevent and respond to sexual harassment and other forms of sexual violence against women and girls in public spaces.

**Good practices** in the implementation of safe city and safe public spaces programming, which contributes to SDGs: 4,5,11, and 16.

- Discuss safe city free of violence against women and girls' policy and programme action that can be sustained, with a focus on: women's rights approaches, shared accountability, evaluability for impact, and building programmes to scale.
- Strategize how the global movement on women's safety in cities can maximize its policy and advocacy impact in the localization of the Sustainable Development Goals.

## **Snapshot for 2018 Global Leaders' Forum on Safe Cities and Safe Public Spaces**

- Through interdisciplinary expert-led discussion and debate with over 250 safe city stakeholders committed to transformational change in lives of women and girls in cities worldwide, this year's Forum will include:
- Plenary Sessions on Canadian National Trends and Developments on Women's Safety in Cities and Public Spaces, Programming from the Margins (Intersectionality), and Safe and Sustainable Gender Responsive Transportation.
- A Country-Hosted Forum on the First Day which provides participants with a deep understanding of the national and local issues related to sexual harassment and other forms of sexual violence against women and girls in public spaces, and within the continuum of violence.
- Tailored south/south and north/north thematic specific sessions led by country teams with stakeholders to maximise the opportunity for exchange and learning to advance safe cities free of violence against women and girls programming.
- Training sessions that improve the knowledge and skills of multiple partners in safe cities and safe public spaces with women and girls programming on intersectionality, culturally and gender aware prevention and response programmes, and gender responsive planning.

# Tuesday October 16<sup>th</sup>, 2018

## Venue
