(Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222), and EPCOR Drainage Services (Water and Sewer Servicing 780-496-5444).
- The existing services (water and sanitary) enter the proposed subdivision approximately 6.9 m north of the south property line of Lot 10 off the lane. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- There is an existing power pole and guy wire that may interfere with access to the proposed Lot 10A. Subdivision Planning recommends that the applicant/owner contact EPCOR Distribution & Transmission to confirm whether this pole will inhibit alley access to the site, which may result in a delay with the issuance of the Development Permit. Site access must maintain a minimum clearance of 1 m from the closest edge of the power pole to the closest edge of the proposed

driveway. Contact EPCOR Customer Engineering Services for more information ([ces@epcor.com](mailto:ces@epcor.com) or 780-412-3128).

- Overhead power lines are located on or adjacent to the subject site. It is important to prevent structural conflicts with electrical equipment. At the Development Permit stage, power poles, transformers, and other electrical equipment near the subject site must be included on all site plans and drawings. If a structure is greater than 5.5 m in height and has a setback of 4.5 m or less from the property line, please advise EPCOR Power's Customer Engineering Services ([CES@epcor.com](mailto:CES@epcor.com) or 780-412-3128). They will provide feedback from a safety perspective, to help ensure Alberta Electrical Utility Code clearance requirements are achieved.
