Please be advised of the following:

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$3,095.00 - 2022 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Building / Site

- The owner shall ensure the phased condominium adheres to the conditions and design layout approved in the Development and Building Permits; any changes or revisions may require new or revised development and building permit application(s). For further information regarding development and building permits please contact 311 for more information.
- Any changes to the proposed phased condominium unit(s) or remnant unit(s) require a revision to be submitted to the Subdivision Authority for approval.

Transportation

- There is an existing access and driveway to Wadhurst Road. Upon redevelopment of proposed remnant Unit A, the existing residential access to Wadhurst Road must be removed, as shown on Enclosure I. The owner/applicant will be required to obtain a Permit to remove the access, available from Development & Zoning Services, 2nd Floor, 10111 – 104 Avenue. Apply online at www.edmonton.ca/permits.
- There are existing boulevard trees adjacent to the site that must be protected during construction. For information about tree protection please refer to the City of Edmonton's website (Trees and Construction).
- Any and all costs associated with tree work requests (removal, pruning or other) and or remediation from damages are borne on to the proponent as per the Corporate Tree Management Policy (C456C). All work is to be carried out by Urban Forestry who can be contacted at citytrees@edmonton.ca. Removal of City of Edmonton trees must follow the Live Tree Removal Guidelines which includes community notice and value compensation.
- The owner is advised that Wadhurst Road is part of the active transportation network and the existing Bike Network. It has been designed to include shared roadway - low traffic bike lanes within the Wadhurst Road road right-of-way. If the applicant chooses to apply for a front access variance, it may not be supported by Subdivision Planning's transportation review team.

Servicing

- The existing services (water and sanitary) enter the proposed subdivision approximately 5.5m north of the north property line of the lane north of 103rd Ave, 69.8m north of the north property line of 103rd Ave, and 12.5m north of the south property line of lot 22A. Any sanitary sewer service not being utilized by any current or future developments must be cut and plugged on private property by the owner/developer to prevent infiltration from entering the city sewer systems. If the one of the above water services will not be utilized by any current or future developments it must be abandoned by Epcor. Please contact EPCOR at (780) 496-5444 for details.
- Three existing water services currently enter the site off EPCOR's water main on the lane east of Wadhurst Road. If there is on-site water main looping between the existing services, each service must contain a check valve within private property. We require the registration of a restrictive

covenant for check valves for any lot with multiple services. Contact waterlandadmin@epcor.com with your request or for more information

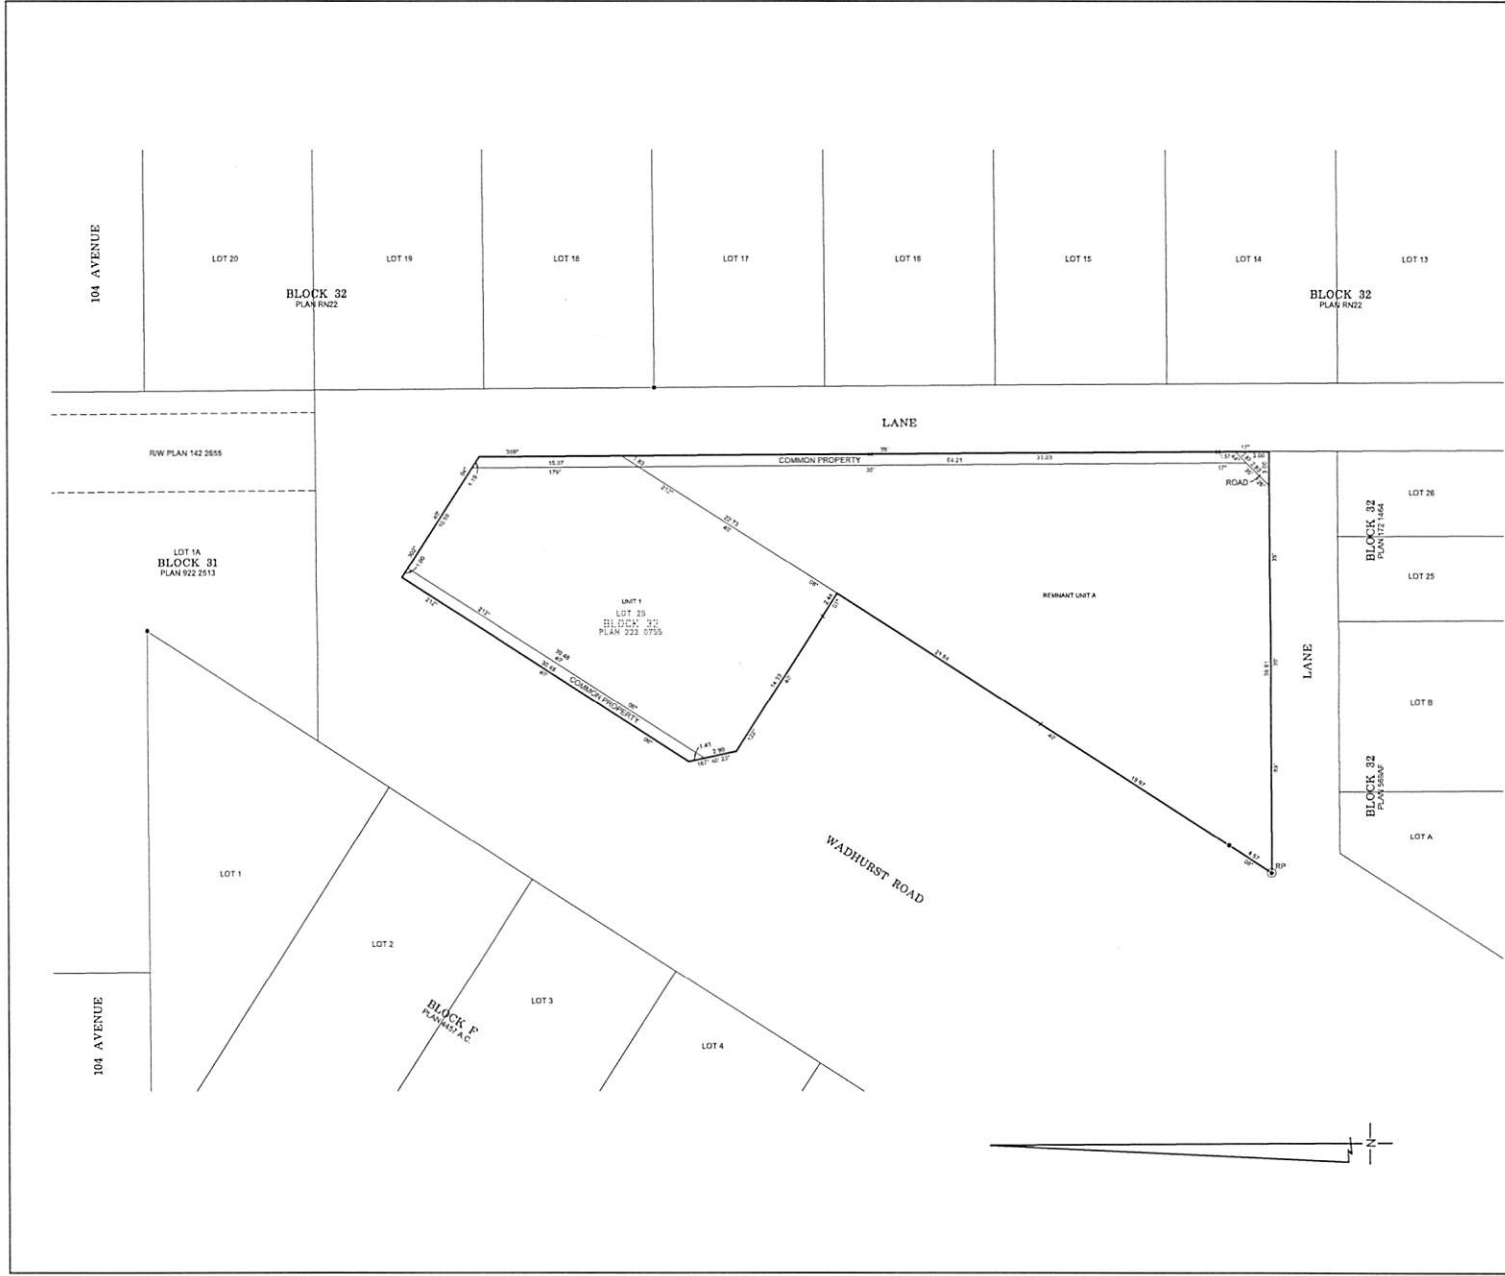

- There is a deficiency in on-street hydrant spacing adjacent to the property. The applicant/owner is advised to review on-site fire protection requirements to ensure adequate coverage (contact EPCOR Water at 780-412-3955).
- Review of the Infill Fire Protection Assessment has determined that, provided future development applications for this site do not exceed a Required Fire Flow of 250L/s, upgrades to water infrastructure will not be required to meet the intent of the standard.

RE: Tentative plan of subdivision to create one (1) additional single detached residential lot from Lot 65, Block 5, Plan 6258 HW, located south of 98 Avenue NW and west of 76 Street NW;
HOLYROOD

The Subdivision by Plan is APPROVED on July 14, 2022, subject to the following conditions:

1. that the owner apply for a permit to demolish the existing dwelling and garage prior to endorsement of the final plan. Demolition permits can be obtained from Development Services. Apply online at www.edmonton.ca/permits; and
2. that the owner pay all outstanding property taxes prior to the endorsement of the plan of survey.

Enclosure I is an attachment of the major advisements throughout the subdivision process. Enclosure II is a map of the subdivision and identifies major conditions and advisements of this approval.

Please be advised that the approval is valid for one (1) year from the date on which the subdivision approval is given to the application. An extension beyond that time may be granted by the City of Edmonton.

Please be advised that an appeal may be lodged in accordance to Section 678 of the Municipal Government Act with the Subdivision and Development Appeal Board, 10019 - 103 Avenue NW, Edmonton Alberta, T5J 0G9, within 14 days from the date of the receipt of this decision. The date of receipt of the decision is deemed to be seven (7) days from the date the decision is mailed.

The Subdivision Authority did not receive comments from adjacent landowners. The application complies with the regulations set out in the Edmonton Zoning Bylaw, the land is serviceable, and the proposal advances a more compact urban form. The Subdivision Authority is of the opinion, after considering factors set out in Section 7 of the Subdivision and Development Regulation, that the land is suitable for the purpose for which the subdivision is intended.

Please be advised of the following:

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$700.00 - 2022 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Transportation

- Access for future development must be to the adjacent alley in conformance with Mature Neighbourhood Overlay Section 814.3(17) of the Zoning Bylaw #12800.
- Access will not be permitted to 98 Avenue as it is an arterial roadway, as shown on the Enclosure. Access will be limited to the alley only.

Building / Site

- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and the Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

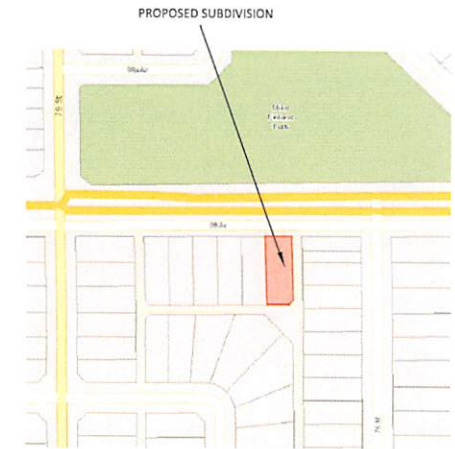

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. (Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222), and EPCOR Drainage Services (Water and Sewer Servicing 780-496-5444).
- The existing services (water and sanitary) enter the proposed subdivision approximately 7.32 m south of the north property line of Lot 65 off of the lane. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- There is an existing power pole and guy wire that will interfere with access to the proposed Lot 65A. Subdivision Planning highly recommends that the applicant/owner initiate the relocation of the power pole/guy wire with EPCOR Distribution & Transmission as soon as possible, as this pole will inhibit alley access to the site and will result in a delay with the issuance of the Development Permit. Contact EPCOR Customer Engineering Services for more information (ces@epcor.com).
- If power service crosses the proposed property line the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. If required, said easement shall be registered prior to or concurrent with the final plan of survey (contact EPCOR Land Administration Group at 780-412-3252).

Please be advised of the following:

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. Building / Site

- The owner must comply with the Fire and Rescue Services requirements for on-site and off-site hydrant installations, to ensure adequate fire protection (contact EPCOR Water at 780-412-3955).
