Enclosures

Please be advised of the following:

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$715.00 - 2024 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Transportation

- There are existing boulevard trees adjacent to the site that must be protected during construction. For information about tree protection please refer to the City of Edmonton's website (search "Trees and Construction").
- Any and all costs associated with tree work requests (removal, pruning or other) and/or remediation from damages are borne on to the proponent as per the Corporate Tree Management Policy (C456C). All work is to be carried out by Urban Forestry who can be contacted at citytrees@edmonton.ca. Removal of City of Edmonton trees must follow the Live Tree Removal Guidelines which include community notice and value compensation.
- Access for future development must be to the adjacent alley as per the General Regulations (Section 6.1) in the 2.10 RS - Small Scale Residential Zone of Zoning Bylaw 20001.
- There is an existing access to 141 Street NW. Upon redevelopment of proposed Lot 15A, the existing residential access to 141 Street NW must be removed. The owner/applicant will be required to obtain a Permit to remove the access, available from Development Services. Apply online at www.edmonton.ca/permits.

Building / Site

- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and the Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. (Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222), and EPCOR Drainage Services (Water and Sewer Servicing 780-496-5444).
- The existing services (water and sanitary) enter the proposed subdivision approximately 13.1 m north of the south property line of existing Lot 15, off the lane. The existing storm service enters the proposed subdivision approximately 13.9 m north of the south property line of existing Lot 15, off 141 Street NW. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- There is a deficiency in on-street hydrant spacing adjacent to the property. The applicant/owner is advised to review on-site fire protection requirements to ensure adequate coverage (contact EPCOR Water at 780-412-3955).

- Overhead power lines are located on or adjacent to the subject site. It is important to prevent structural conflicts with electrical equipment. At the Development Permit stage, power poles, transformers, and other electrical equipment near the subject site must be included on all site plans and drawings. If a structure is greater than 5.5 m in height and has a setback of 4.5 m or less from the property line, please advise EPCOR Power's Customer Engineering Services (CES@epcor.com or 780-412-3128). They will provide feedback from a safety perspective, to help ensure Alberta Electrical Utility Code clearance requirements are achieved. For more information, refer to EPCOR Power's website at www.epcor.com (search "Building Structures and Power Equipment Clearances").
- If power service crosses the proposed property line the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. RE: Tentative plan of subdivision to create separate titles from Lots 14 & 15, Block 33, Plan 6171HW, located south of 95 Avenue NW and east of 153 Street NW; **SHERWOOD**

The Subdivision by Plan is APPROVED on October 10, 2024, subject to the following conditions:

1. that the owner apply for a permit to demolish the existing dwelling and garage prior to endorsement of the final plan. Demolition permits can be obtained from Development Services. Apply online at www.edmonton.ca/permits; and
2. that the owner pay all outstanding property taxes prior to the endorsement of the plan of survey.

Enclosure I is an attachment of the major advisements throughout the subdivision process. Enclosure II is a map of the subdivision and identifies major conditions and advisements of this approval.

Please be advised that the approval is valid for one (1) year from the date on which the subdivision approval is given to the application. An extension beyond that time may be granted by the City of Edmonton.

Please be advised that the Subdivision Authority will not endorse the plan of subdivision or other instrument until the appeal period as prescribed by the Municipal Government Act has lapsed. An appeal may be lodged in accordance to Section 678 of the Municipal Government Act with the Subdivision and Development Appeal Board, 10019 - 103 Avenue NW, Edmonton Alberta, T5J 0G9, within 14 days from the date of the receipt of this decision. The date of receipt of the decision is deemed to be seven (7) days from the date the decision is mailed.

The Subdivision Authority did not receive comments from adjacent landowners. The application complies with the regulations set out in the Edmonton Zoning Bylaw, the land is serviceable, and the proposal advances a more compact urban form. The Subdivision Authority is of the opinion, after considering factors set out in Section 9 of the Matters Related to Subdivision and Development Regulation, that the land is suitable for the purpose for which the subdivision is intended.

If you have further questions, please contact subdivisions@edmonton.ca.

Regards,

Blair McDowell

Enclosures

Please be advised of the following:

Next Steps for Subdivision Approval

- The next step in the subdivision process is to complete the Application for Separation or Consolidation of Titles form in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$715.00 - 2024 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Transportation

- There are existing boulevard trees adjacent to the site that must be protected during construction. For information about tree protection please refer to the City of Edmonton's website (search "Trees and Construction").
- Any and all costs associated with tree work requests (removal, pruning or other) and/or remediation from damages are borne on to the proponent as per the Corporate Tree Management Policy (C456C). All work is to be carried out by Urban Forestry who can be contacted at citytrees@edmonton.ca. Removal of City of Edmonton trees must follow the Live Tree Removal Guidelines which include community notice and value compensation.
- Access for future development must be to the adjacent alley as per the General Regulations (Section 6.1) in the 2.10 RS - Small Scale Residential Zone of Zoning Bylaw 20001.

Building / Site

- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and the Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. (Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222), and EPCOR Drainage Services (Water and Sewer Servicing 780-496-5444).
- The existing services (water and sanitary) enter the proposed subdivision approximately 6.60 m south of the north property line of Lot 15 off 153 Street NW. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- There is a deficiency in on-street hydrant spacing adjacent to the property. The applicant/owner is advised to review on-site fire protection requirements to ensure adequate coverage (contact EPCOR Water at 780-412-3955).
- If power service crosses the proposed property line the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. If required, said easement shall be registered prior to or concurrent with the final plan of survey (contact EPCOR Land Administration Group at 780-412-3252).
