Alley Renewal is funded by a city-wide Neighbourhood Renewal Tax Levy, which means no additional cost for homeowners.

Alley renewal includes:

- + Reconstructing your alley with a new base and hard surface
- + Improving surface drainage, where possible
- + Pruning trees/shrubs as necessary ahead of construction
- + Replacing material between the alley and property line with the same material that was removed during construction

In 2018, the City of Edmonton approved an Alley Renewal program to address the poor condition of its nearly 1,200 kilometers of alleys. This long-term plan will improve alleys city-wide over the next 25 years.

Construction

Alley renewal construction will take place from May to October 2023. Once construction starts in your alley, it will not be accessible for about four weeks. During this time, parking and waste collection will move to the front street.
