

CONSTRUCTION NOTICE

Capital Line South LRT Utility Relocation Project
23 Avenue NW from 111 Street NW to 105 Street NW

SEPTEMBER 2024

PROJECT OVERVIEW

As part of the City of Edmonton's Capital Line South LRT Extension Project, EPCOR is responsible for relocating all the power, water and drainage utilities to avoid potential conflicts with future LRT infrastructure. This line is an extension of the current Capital Line, which will operate from Century Park to Ellerslie Road.

To meet the overall LRT project schedule, the City of Edmonton has requested that EPCOR perform the utility relocations within specific areas along the alignment before LRT construction. EPCOR Capital Line LRT projects began in March 2023 and will continue until 2025.

WHAT'S HAPPENING?

Starting in mid-September, for approximately two months, EPCOR will be working along the north side of 23 Avenue NW between 111 Street NW and 105 Street NW to relocate electricity infrastructure.

A hydrovac truck and horizontal directional drill will be used to install the new underground power cables. While the power cables are being installed, EPCOR will make small excavations throughout the route, to verify and avoid the locations of existing utilities and ensure no damage occurs.

EPCOR will also be relocating a switching cubicle, a grey or green power box that helps route power from neighbourhood to neighbourhood.

SCHEDULE

Construction will begin in early October and is expected to be complete within two months, weather permitting. The typical hours of construction will be 7:00 a.m. – 9:00 p.m., Monday to Saturday.

PROJECT DETAILS

Residents and businesses can expect to see activity that is typical to construction, including company/contractor vehicles and equipment.

Power Outages

Power outages may be necessary at times to ensure work can be completed safely. Customers can learn more about power outages at epcor.com/poweroutages.

Noise

This project may be noisy at times. We will comply with the City of Edmonton's Community Standards Bylaw for Noise Control. If it is necessary to temporarily exceed acceptable noise levels, we will work with the City of Edmonton to obtain the necessary permits.

Restoration

Landscaping and pavement will be restored after construction is complete and weather permits.

PROJECT AREA

LEGEND

-  Directional drilling work area (underground)
-  New switching cubicle

TRAFFIC IMPACTS

Temporary road/lane restrictions are expected along the westbound lane (north side) of 23 Avenue NW between 111 Street NW and 105 Street NW. Signage will indicate traffic detours as required.

PEDESTRIAN IMPACTS

Access to the multi-use path along the north side of 23 Avenue NW between 111 Street NW and 105 Street NW will be maintained throughout construction.

SAFETY

The construction area will be fenced and/or marked as a restricted area. We will take every precaution to ensure public safety. We also need your assistance in keeping a safe distance from the construction sites and equipment.
