

Construction Notice - Traffic lane restrictions at 23 Avenue and 111 Street intersection

Beginning on/around **September 28**, EllisDon, the City of Edmonton's early works contractor, will adjust traffic lanes at the 23 Avenue and 111 Street intersection. Traffic lanes will be adjusted so crews have enough space to do drainage work for the future LRT underpass.

Traffic lane adjustments at the intersection include:

- Southbound lanes and northbound lanes through the intersection will be reduced to one lane in each direction;
- Southbound to eastbound double left turn lanes will be reopened;
- Eastbound and westbound lanes will be reopened to two lanes in each direction.

This work is anticipated to last approximately **three weeks** and will occur during daytime hours.

Every effort will be made to reduce impacts to the public, but nearby residents, businesses and institutions can expect to hear construction noise. We thank you for your patience as crews conduct this work.
