

Your Waste Collection Is Changing

Waste Services

.....
Soon, your building will have separate bins or carts for collecting food scraps, recycling and garbage.

Get Ready to Sort!

You will receive a pail for sorting food scraps in your home. Determine if you'll keep this under your sink or on your counter.

Find a place to keep a bag or box to sort recyclables.

.....

Why this change is happening:

- It helps the environment by keeping waste out of the landfill
- It means all Edmontonians will dispose of their waste in the same way—whether they live in an apartment or in a detached house.

A few weeks after you receive your food scraps pail, a City of Edmonton Waste Educator will knock on your door to answer any questions.

.....

Visit edmonton.ca/Waste (or scan the QR Code below) to find out more information about the program! And download WasteWise to help with sorting.
