

Construction Notice

99 Street Pedway Project

Starting on/around March 11, the City's contractor, Leducor Construction, will begin construction of the 99 Street underground pedway (from Churchill LRT Station, north of 102A Avenue, to the Station Lands development, north of 103A/104 Avenue).

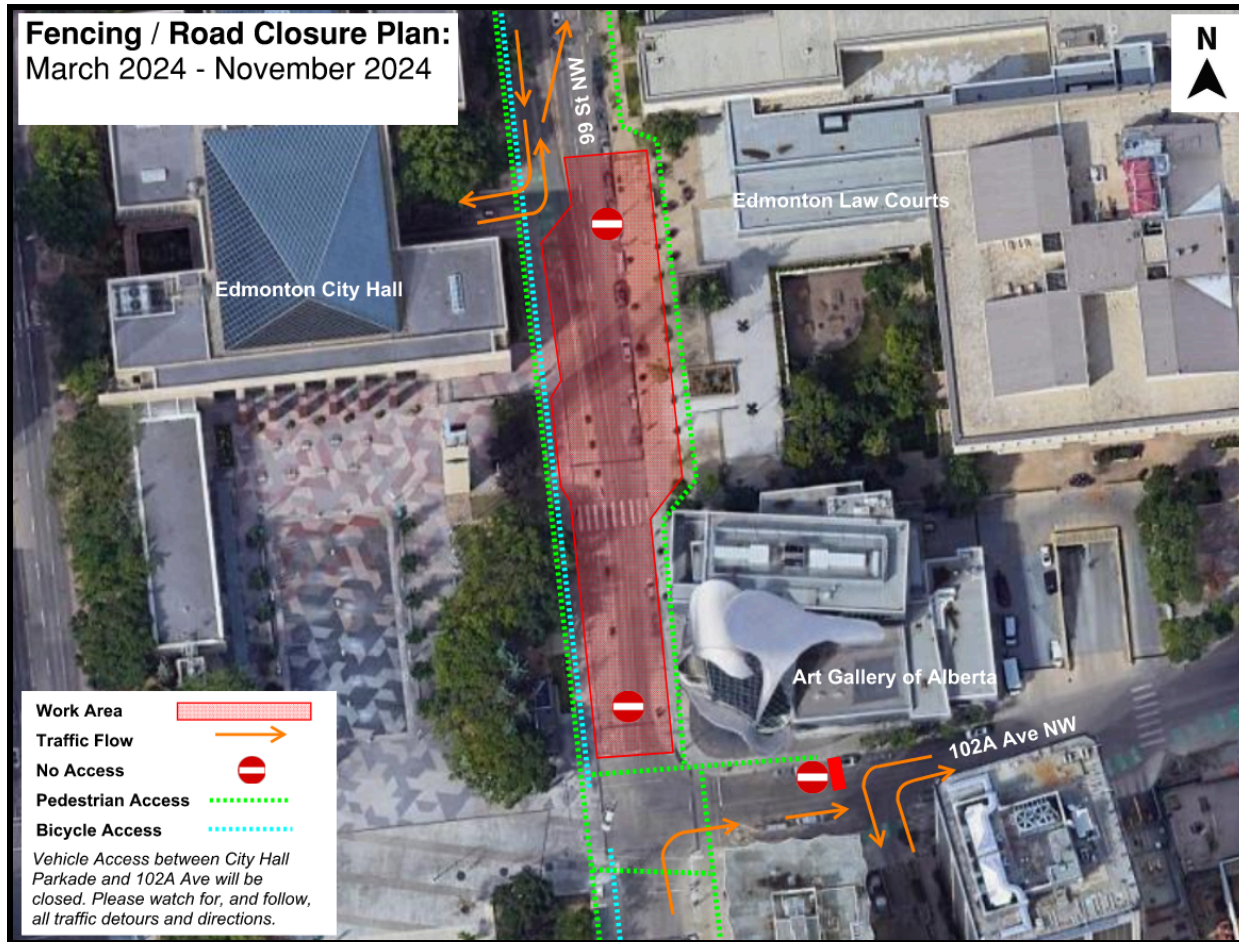

During construction, sections of 99 Street (north of 102A Avenue) and 103A Avenue (between 99-100 Street) will be closed to vehicle traffic. Onsite signage will be in place to help pedestrians and cyclists navigate the area. Access to the City Hall Parkade will be maintained via 103A Avenue in 2024, and via 102A Avenue in 2025. Construction of the pedway is anticipated to continue until the end of 2025.

The 99 Street pedway project is growing the existing pedway system and will continue to provide access to City Hall, the Law Courts and Brownlee buildings, and Royal Alberta Museum during construction. Interim closures to the existing pedway system may be required periodically.

What to expect:

- Starting on/around March 11, Leducor Construction, the City's contractor, will begin construction of the 99 Street underground pedway.
- Crews will need to close sections of 99 Street and 103A Avenue to vehicle traffic during construction.
- Construction will include excavating, drilling and large equipment. Crews will minimize dust and noise impacts where possible.
- Signage will be posted to help pedestrians, cyclists and motorists navigate detours near the construction site.
- Every effort will be made to reduce impacts to the public during festivals and events near the construction site.

Fencing / Road Closure Plan:
March 2024 - November 2024
