

# Terwillegar Drive Expansion Construction Notice

Edmonton

February 2024

## Rainbow Valley Bridge Construction

### *Terwillegar Drive Expansion - Stage Two*

Starting February 9, 2024, construction on the Rainbow Valley Bridge located on Whitemud Drive will begin. Rainbow Valley Bridge will be widened to accommodate four lanes in each direction. During construction, the westbound lanes will be closed, with two-way traffic redirected to the eastbound lane. Site preparation will begin on February 2 to accommodate construction.

#### **Traffic Accommodation**

Two lanes on Whitemud Drive will remain open in each direction during peak hours, with additional partial closures expected during off-peak hours as necessary. The existing sidewalk will be removed and a safe pedestrian detour route through Whitemud Creek Ravine will be provided during construction. Access to Snow Valley and the Rainbow Valley Campground will be maintained throughout the project.

#### **For More Information:**

The City understands construction is disruptive and impacts the infrastructure people use daily. Thank you to Edmontonians for their patience as this project is completed. Please allow for additional travel time and drive with care.
