

DRAFT Guiding Principles

Guiding Principles are ideas and priorities that shape how the vision is applied to the neighbourhood design. These Guiding Principles are unique to your neighbourhood.

Based on past public engagement since June 2019, we heard from community members about what they value about Malmo Plains and created the DRAFT Guiding Principles:

a. Improving accessibility in the community and to surrounding destinations.

b. Making the places where people travel safer for all users, ages and abilities.

c. Creating welcoming spaces that encourage and make it easy for community members to come together and gather.

d. Respecting and preserving the natural character of the neighbourhood and its greenery.

e. Adding basic amenities to create park spaces where people of all ages can gather, connect and play.

f. Creating safe and well-lit spaces within the community.

Please use the sticky notes provided to answer the questions below and reference the question you are answering and the guiding principles (if applicable).

1. Will the DRAFT Guiding Principles allow us to achieve the vision?
2. Have we missed anything?
3. Is there something that should be removed?
4. Are there any that should be combined?

Place a dot next to the Guiding Principles that are the most important to you.

DRAFT Vision

A **vision** is a short description that sets the direction for the Neighbourhood Renewal project by stating the elements that are most important to the community.

Based on past public engagement since June 2019, we heard from community members about what they value about Malmo Plains and created the DRAFT Vision:

Malmo Plains is a family-friendly neighbourhood that welcomes people of all ages. We are an active, enthusiastic and engaged community that enjoys connecting with our neighbours. We appreciate that our neighbourhood is walkable and safe, with easy access to transit, schools, the University of Alberta and shopping. We take pride in the natural character of Malmo Plains including mature trees, greenery and park spaces.

Does this DRAFT Vision reflect how you feel about Malmo Plains? In the space below, use sticky notes to describe your level of support for this statement.
