

Abutting Properties Plan Checklist:

- Property address
- Corresponding streets and avenues
- North arrow

- Front setback of left adjacent property
- Front setback of right adjacent property
- Left adjacent property address
- Right adjacent property address

How to find your front setback:

- Front setback measurements are located in your Real Property Report.
- Setback are measured from the property line to the foundation of the house or the post of a veranda (where applicable). Please do not measure to uncovered decks or steps
- Need help to determine the measurement between the curb and your property line? Contact mapdesk@edmonton.ca to request a map showing this information.
