Permit and Licence Service Improvements

Continuing on the work of the Urban Form Business Transformation, we're beginning a two-year initiative to improve City of Edmonton permit and licensing services to make it easier for businesses and homeowners to do the things that matter to them.

New House Construction Permit Reminders

As a reminder, please ensure your permit applications include the full scope of construction intentions. In residential new homes, this may include a basement development, secondary suite, exterior deck, veranda, etc. All inspections will be

Furnace Replacements Need Inspections Too

As per the Safety Codes Act Permit Regulation 12(1) any gas appliance (furnace) that is getting replaced and is having new venting systems or gas line alterations to complete this replacement requires a Gas Permit and the required inspections to be completed.

For more information, visit the [City's residential gas permits webpage](#).
