

Royal Gardens Neighbourhood Renewal

Edmonton

Fact Sheet - November 2018

PROJECT OVERVIEW

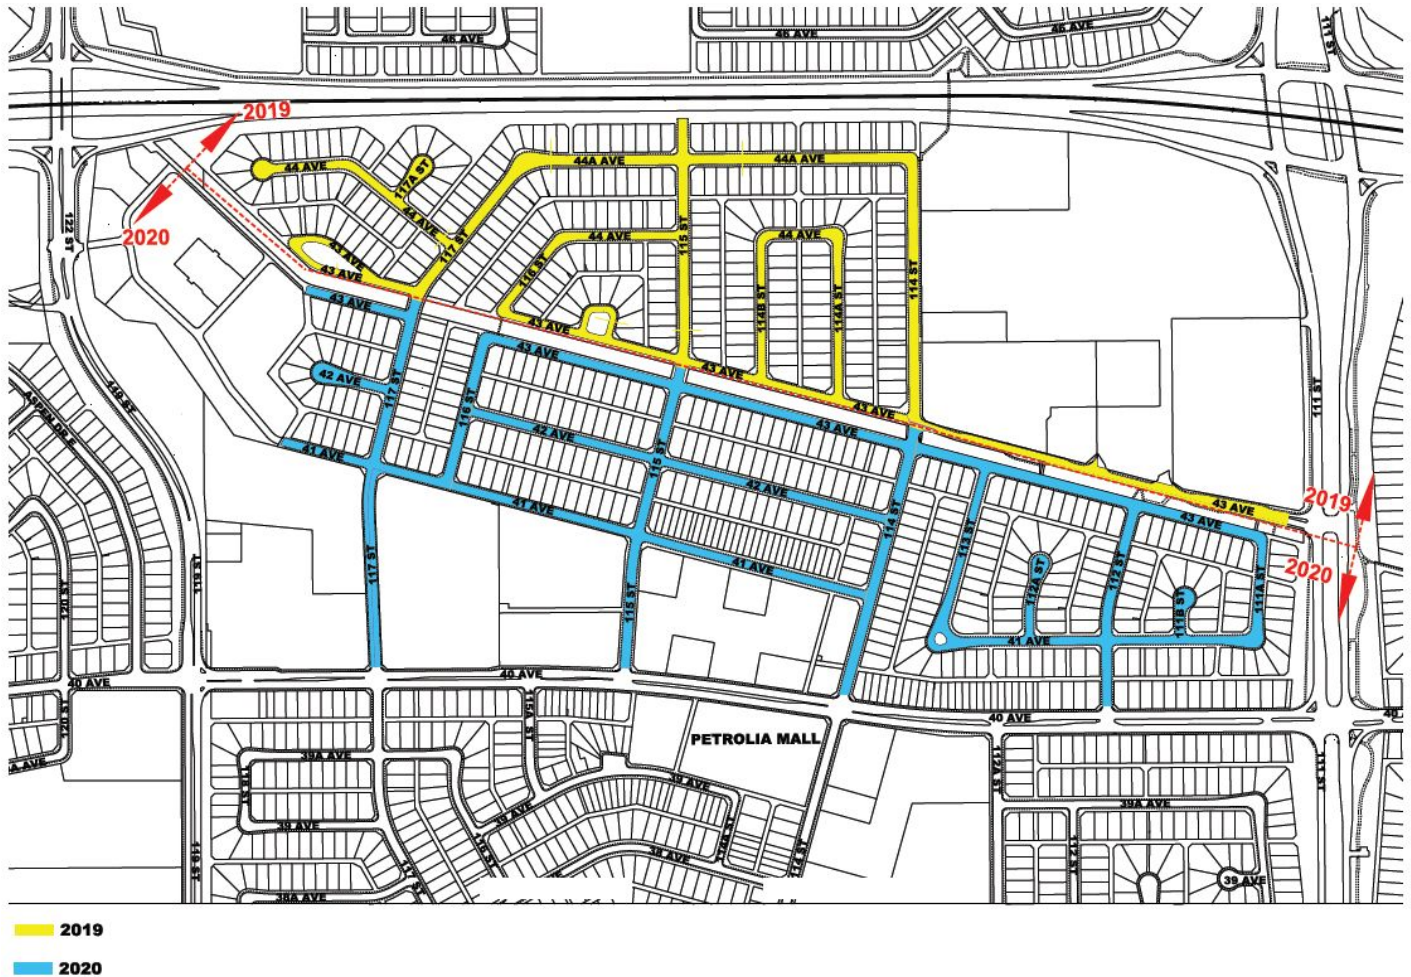

Starting in spring 2019, Royal Gardens will see the replacement of its aging collector and local roadway surfaces, street lights and sidewalks as part of the City of Edmonton's Neighbourhood Renewal program for mature neighbourhoods. A dedicated City branch, Building Great Neighbourhoods, has explored enhancements to other City-owned areas within the community, including green spaces and parks, and looked for possible opportunities, to make desired upgrades and enhancements in coordination with the Neighbourhood Renewal program. The reconstruction in Royal Gardens is expected to be a 2 year renewal, beginning in 2019 with anticipated completion in 2020.

Planning for Royal Gardens Neighbourhood Renewal is now nearing completion. Preliminary designs have been prepared based on the feedback collected through previous public events and surveys since January 2018. The preliminary design is a refinement of the draft concepts presented during public engagement in June, 2018, and will be followed by the creation of final construction plans. The preliminary designs encompass:

- Residential streets, including measures to slow traffic
- Improvements to existing bike routes
- Park and green space enhancements
- Improvements to pathways and walking connections

TENTATIVE CONSTRUCTION STAGING FOR ROADS AND SIDEWALKS*

*The tentative construction staging is subject to change. The staging of park/open space improvements has not been determined yet.

STAY INFORMED!

Information shared at the November 8, 2018 event will be made available online. For more information regarding the Royal Gardens Neighbourhood Renewal, the pre-construction event in the new year, project updates or to subscribe to our email list, please visit edmonton.ca/BuildingRoyalGardens.
