RE: Tentative plan of subdivision to create one (1) additional single detached residential lot from Lot 6 and Lot OT, Block 114, Plan 2803 AF, located south of 103 Avenue NW and east of 134 Street NW; **GLENORA**

---

**The Subdivision by Plan is REFUSED on September 20, 2018 for the following reasons:**

1. The proposed lots (Lot 6A and Lot 6B) do not comply with the minimum development regulation identified in Section 110.4(1)(c) of the City of Edmonton Zoning Bylaw 12800. The site is zoned (RF1) Single Detached Residential Zone. The minimum Site Depth identified in the (RF1) Single Detached Residential Zone for permitted and discretionary uses is 30.0 metres. The Site Depth of proposed Lot 6A is approximately 24.3 metres and would be deficient by approximately 5.7 metres or 19%. The Site Depth of proposed Lot 6B is 17.9 metres and would be deficient by 12.1 metres or 40%.

This proposal will result in Site Depths that are uncharacteristically small in comparison to properties on the adjacent block faces. For example, the Site Depths of adjacent lots are greater than 40.0 metres.

2. The proposed subdivision will create two non-conforming lots that do not meet development regulations in the City of Edmonton Zoning Bylaw 12800. Based on the applicant's proposed building pocket (see Enclosure II), the proposed lots will create unnecessary development hardship for the current and future landowner(s). Landowners seeking to further develop or redevelop will require Development Permit variances to the following Edmonton Zoning Bylaw 12800 development regulations:
  - a. Proposed Lot 6A
    - i. Site Depth is non-conforming (minimum 30 metres; Section 110.4(1)(c)); and
    - ii. Site Access is non-conforming (vehicular access required from the rear lane; Section 814.3.(17)).
  - b. Proposed Lot 6B
    - i. Site Depth is non-conforming (minimum 30 metres; Section 110.4(1)(c)); and
    - ii. Rear Setback is deficient (40% of site depth; Section 814.3(4)).
3. Access to proposed Lot 6B and the existing access to Lot 6A would not comply with the general intent of the *Residential Infill Guidelines*, which "should respect the role of lanes not only as a primary vehicular access route but as a factor in maintaining the livability of neighbourhoods"

(City of Edmonton Policy C551, General Principle #8).

Given the absence of a rear lane, site access to proposed Lot 6B could come from 103 Avenue and would potentially require the removal of a boulevard tree and/or relocation of a power pole, or access could come from 134 Street and would cross an existing sidewalk. The applicant proposes Lot 6B access at 134 Street NW (see Enclosure II).

It is important to reiterate that the existing access to Lot 6A would be non-conforming with section 814.3(17) of the Mature Neighbourhood Overlay, since access would continue to exist from 134 Street and would not be from the abutting lane.

Front driveways have negative impacts on the neighbourhood, including:

- a. Compromising pedestrian walkability and safety in a mature neighbourhood by increasing the interaction between private vehicle space and public pedestrian space along the sidewalk;
  - b. Breaking up the streetscape by expanding the amount of hard surface along the boulevard. Landscaped boulevards help to demarcate the pedestrian realm from vehicular traffic;
  - c. Decreasing public landscaping by removing mature trees, their root systems, and/or turf on boulevards;
  - d. Limiting front yard landscaping opportunities on proposed Lot 6B; and
  - e. Reducing the availability of on-street parking in a mature neighbourhood since vehicles cannot park in front of driveways.
4. The proposed lots do not support section 5.8.1 of *The Way We Grow*, Edmonton's Municipal Development Plan Bylaw 15100, since they would not "[e]ncourage a sense of local identity and create connections to the city's cultural and historical roots through the conservation and preservation of significant structures, buildings, districts, landscapes and archeological resources" (p. 50).

The subject site and lots to the east, surrounding Alexander Circle Park, form an established and historic lot layout that is unique to the Glenora neighbourhood and Edmonton. The subject lot functions as an entryway to a park space and is one out of eight lots that shares a similar configuration, abutting the park's unique design.

This subdivision layout can be described as a large circular block with a grid street pattern that surrounds the circle. This original 1911 subdivision layout is a valuable example of the "Garden City Suburb" movement and can be identified by the following characteristics:

- a. Irregular shaped lots with a strong focus around park spaces (i.e. Alexander Circle Park), in order to accommodate larger setbacks between buildings to preserve views;
- b. Street and lot layouts that incorporate natural topography and rolling greenbelts (i.e. Ramsay Ravine);
- c. Tree lined streets;
- d. Vehicular access limited primarily to rear lanes; and
- e. Front street landscapes that support walkable pedestrian environments.

The proposed subdivision will create two lots that are overdeveloped since they will have smaller setbacks in comparison to adjacent lots. The proposed lot accesses would not support City policies (i.e. *Residential Infill Guidelines* and the Mature Neighbourhood Overlay) to maintain rear lane access. The additional front driveway for proposed Lot 6B physically interrupts the sidewalk and decreases the safety of walkability of the street. The proposed subdivision diverges from the community's "Garden City" character.

Enclosure I is a map for this subdivision refusal. Enclosure II is a map outlining the applicant's proposed building pocket for this refusal.

Please be advised that an appeal may be lodged in accordance to Section 678 of the Municipal Government Act with the Subdivision and Development Appeal Board, 10019 – 103 Avenue NW, Edmonton Alberta, T5J 0G9, within 14 days from the date of the receipt of this decision. The date of receipt of the decision is deemed to be seven (7) days from the date the decision is mailed.

Enclosure

Please be advised of the following:

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$662.00 - 2018 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Transportation

- There are existing boulevard trees adjacent to the site on 78 Avenue NW that must be protected during construction. For information about tree protection please refer to the City of Edmonton's web site (Trees and Construction).
- Access for future development must be to the adjacent alley in conformance with the Mature Neighbourhood Overlay Sec. 814.3(17) of the Zoning Bylaw #12800.

Building / Site

- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. (Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222) and EPCOR Drainage Services (water and sewer servicing 780-496-5444).
- The existing services (water and sanitary) enter the proposed subdivision approximately 10.65 m east of the west property line of Lot 13 off of the lane. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- There is a deficiency in on-street hydrant spacing adjacent to the property. The applicant/owner is advised to review on-site fire protection requirements to ensure adequate coverage (contact EPCOR Water at 780-412-3955).
- If power service crosses the proposed property line the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. If required, said easement shall be registered prior to or concurrent with the final plan of survey (contact EPCOR Land Administration Group at 780-412-3252).
